# Application Notes

This section is about how to apply the Wattmon in various situations. Here's what we have so far:

- Serial Port Programming - See how to interface with both RS-232 and RS-485 devices
- Custom Scripting - Use the built-in Blockly scripting engine for custom scripts
- Exporting Data to a Custom Server - Push data from a Wattmon to a third-party server
- Importing Data to the EMS Cloud - Import data from a third-party device to the Wattmon server
- Extracting Data from the EMS Cloud - Extract data from the EMS server using APIs
- Configuring your Delta Inverter and Power Meter for Zero Export
