WMPRO, WMMINI FW >= 1.0 WMMEGA FW >= 2.0

Print to the System Log (or optional file)

Description

`log (string $output [, string $file])`

This function places an entry in the default system log `/logs/log.txt` or in the specified **file**.

Parameters

\$output: A **string** to place in the log file

\$file: Optional, log file name

Return Values

None

Example

```
<?
log("This is a log message");
?>
```
